
Fundamental strategy of social net in Lab Link

Social net system

Free

- membership fee, access, writing (as like wikipedia)
- copyright (using creative common license/ supervision thing by Lab Link)
 - member can select publication by real name or non of publication. If member selects publication, member has copyright about publication. If member doesn't select publication by real name, Lab Link publish as supervision thing and Lab Link have copyright.
- communication (including blog, chat, counseling on line)
- commission for commodity exchange
- assessment about shop, clinic, hospital, university

Private club

- member present new member

Zoning

- differ from access by level of profession and evaluation

Category

- differ from contents to access among each zone

Evaluation basis for public order

- five ranking to evaluate about writing, communication and commodity exchange

Earnings

- advertisement, web-marketing, consulting, experience seminar
- from theory and model

Ecology

- Lab Link serve publication including report, paper etc on line. Lab Link recommend that members write address of http as reference in report and paper. Another member can access address. They can look for reference by paperless
